## **Auditors' Report**

To the Board of Directors
BCS Holding International Limited

The accompanying summary consolidated financial statements, which comprise the summary consolidated statement of financial position as at 31 December 2014, the summary consolidated statements of profit or loss and other comprehensive income, changes in equity and cash flows for 2014, and related notes, are derived from the audited consolidated financial statements of BCS Holding International Limited and its subsidiaries (the Group) as at and for the year ended 31 December 2014. We expressed an unmodified audit opinion on those consolidated financial statements in our report dated 1 July 2015.

The summary consolidated financial statements do not contain all the disclosures required by International Financial Reporting Standards. Reading the summary consolidated financial statements, therefore, is not a substitute for reading the audited consolidated financial statements of the Group.

Management's Responsibility for the Summary Consolidated Financial Statements

Management is responsible for the preparation of a summary of the audited consolidated financial statements on the basis described in Note 2.

Auditors' Responsibility

Our responsibility is to express an opinion on the summary consolidated financial statements based on our procedures, which were conducted in accordance with International Standard on Auditing (ISA) 810 Engagements to Report on Summary Financial Statements.

#### Opinion

In our opinion, the summary consolidated financial statements derived from the audited consolidated financial statements of the Group as at and for the year ended 31 December 2014 are consistent, in all material respects, with those consolidated financial statements on the basis described in Basis of preparation.

## 1. Background

These summary consolidated financial statements, which comprise the summary consolidated statement of financial position as at 31 December 2014, the summary consolidated statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and related notes are derived from the audited consolidated financial statements of BCS Holding International Limited for 2014.

## Organisation and operations

BCS Holding International Limited (the Company), together with its consolidated subsidiaries (collectively, the Group), is a leading retail broker and asset management company. The Group, through its custody, clearing and depository platform, using both proprietary and third-party technology, provides an integrated platform of brokerage, retail and investment banking, depository and asset management services to individuals and corporate customers in the Russian Federation and abroad. The Group offers integrated web- and software-based trading platforms, which incorporate intelligent order routing technology, real-time market data, options trading, premium stock research, and multi-channel access, as well as sophisticated account and trade management features, risk management tools, decision support tools, and dedicated personal support. The Group serves its clients through a combination of its branch offices and web-based and telephonic services, and provides direct-market-access equity and derivatives brokerage services on the Moscow Exchange, LSE and other major exchanges (AMEX, NASDAQ, NYSE, CME/CBOT, Eurex, Euronext, LIFFE, XETRA) and on the FX market.

#### Russian business environment

A significant part of the Group's operations are conducted in the Russian Federation. Consequently, the Group is exposed to the economic and financial markets of the Russian Federation which display characteristics of an emerging market. The legal, currency, tax and regulatory frameworks continue development and are subject to varying interpretations and frequent changes which together with other legal and fiscal impediments contribute to the challenges faced by entities operating in the Russian Federation. Furthermore, the need for further developments in the bankruptcy laws, the absence of formalised procedures for the registration and enforcement of collateral, and other legal and fiscal impediments further contribute to the challenges faced by financial institutions operating in the Russian Federation.

The Group's major sources of net revenues are fees and commission from brokerage business, asset management and administration fees, net interest income, and trading revenue. The Group's business can be adversely affected by the general environment – economic, corporate, securities market, regulatory, and geopolitical developments all play a role in client asset valuations, trading activity, interest rates and overall investor engagement, and are outside of the Group's control. Deterioration in credit markets, reductions in short-term interest rates, and decreases in securities valuations negatively impact the fees and commission income, net interest income, asset management and administration fees, and capital resources.

The future economic direction of the Russian Federation is largely dependent upon the effectiveness of economic, financial and monetary measures undertaken by the Government, together with tax, legal, regulatory and political developments. Management is unable to predict all developments which could have an impact on the financial sector and wider economy and consequently what effect, if any, they could have on the future financial position of the Group. Management believes it is taking all the

necessary measures to support the sustainability and development of the Group's business. The accompanying summary consolidated financial statements reflect management's estimates of the potential effect of the current operating and business environment on the results and financial position. The future business environment may differ from management's estimates.

## Cyprus business environment

The Cyprus economy has been adversely affected from the crisis in the Cyprus banking system in conjunction with the inability of the Republic of Cyprus to borrow from international markets. These events led to negotiations between the Republic of Cyprus and the European Commission, the European Central Bank and the International Monetary Fund (the «Troika») for financial support which resulted into the Eurogroup decisions on 25 March 2013. The decisions involved the formulation of an Economic Adjustment Program for the country entailing the provision of financial assistance of up to EUR10 billion, the disbursements of which are subject to ongoing reviews by the Troika.

Furthermore, the decisions included the restructuring of the two largest banks in Cyprus through a «bail in». During 2014 the banking sector in Cyprus undertook significant measures in anticipation of and subsequent to the EU-wide comprehensive assessment which consisted of thorough asset quality reviews and stress tests and as a result was sufficiently recapitalised. Nevertheless the banking sector continues to face challenges imposed by the high level of non-performing loans and availability of credit is limited.

Management believes that it is taking all the necessary measures to maintain the viability of the Group and the development of its business in the current business and economic environment.
