

ABOUT THIS DOCUMENT

This notice explains how we use cookies and other internet tracking software. It also explains the choices you can make about whether we can put some types of cookies on your device.

We may from time to time change this notice to comply with statutory requirements and our own practices for the collection and processing of data.

WHAT ARE COOKIES?

Cookies are text files containing small amounts of information, which your device downloads when you visit a website. When you return to websites – or visit websites that use the same cookies – they recognise these cookies and therefore your browsing device.

FIRST AND THIRD PARTY COOKIES

Whether a cookie is first or third party depends on where it comes from.

First party cookies are set by websites you go to.

Third party cookies are set by outside organisations. For instance, you may be on a website that has ‘Like’ and ‘Share’ buttons for social network sites. If you click one, the social network site will put a ‘third party’ cookie on your device. That cookie may then collect data about you and send it to them too. You will need to set your privacy choices on their site, to tell them how they can use your data.

HOW AND WHY WE USE COOKIES

We use cookies to give you the best possible experience on our website.

We do not use our own (first-party) cookies and do not track how you use our website, which means that no personal data (name, e-mail, IP addresses or similar) is stored in our cookies.

We use third-party’s cookies. Some of them may place their own cookies on your device when you visit our website. You will need to set your privacy choices on their website, to tell them how they can use your data.

WHAT COOKIES WE USE

On our website, we use the following cookies:

Cookie	Name	Purpose	Expiry
YouTube cookies	CONSENT	We embed videos from our official YouTube channel using YouTube’s privacy-enhanced mode. This mode may set cookies on your computer once you browse a page with YouTube video player embedded and update them when you click on the player, but YouTube will not store personally-identifiable cookie information for playbacks of embedded videos using the privacy-enhanced mode. Please take a few moments to read more at YouTube’s embedding videos information page .	expires after 20 months
	GPS		expires at the end of your session
	PREF		expires after 2 years
	VISITOR_INFO1_LIVE		expires after 6 months
	YSC		expires at the end of your session
